

The Story of the Little Red Dragon

Once upon a time, in a small cave high up in the Misty Mountains, there lived a little red dragon named Ignis.

Ignis was not like the other dragons. While they loved hoarding gold and breathing fire at passing knights, Ignis preferred reading books and eating fresh red apples.

He spent his days searching the valleys for wild apple trees.

One day, he met a friendly squirrel who showed him a secret orchard full of the sweetest, juiciest apples he had ever tasted.

From that day on, Ignis was the happiest dragon in the mountains.

The End.
